

CAMPOVERDE[®]
ultracongelados

Specialists in IQF Vegetables

We focus on understanding the essence of our costumers needs and produce accordingly.

Joint Venture

Ultracongelados Campo Verde S.L., is a factory located in Albacete Spain, with more than 40 years of experience in IQF frozen vegetables.

In 2018, the three shareholders: **JNG BIO**, **Congelados PEDANEO** and **FRDP Bioregard**, combined their resources and formed the **Ultracongelados Campo Verde S.L.** company, as a Joint Venture. The union gave a boost in the modernization and automation of the lines.

The group produces in total more than 75,000 tons of frozen vegetables both conventional and organic.

In the factory **Ultracongelados Campo Verde S.L.**, the main products are super sweet corn and green peas, but there are processed more than 14,000 tons of different products, all of them controlled through 3,000 hectares of own plantations or group farmers.

Our Commitment

The 100% of the control is carried out by the company's own personnel, in all the production stages. Control is carried out from the choice of the seeds, the fields, counseling of the farmers, organization of the recollection and the transport of the raw material to the facilities placed in Albacete for its processing.

The factory counts with complete lines for: green peas, corn kernels, broccoli, cauliflower, onion, zucchini and pepper.

The position of the facilities and the proximity to the fields allows the processing of the vegetables in a very short time, ensuring the high quality of the final product.

Product range

Super Sweet Corn Kernels IQF

Presentation: Kernels.

Green Peas IQF

Presentation: Calibers <7,5 mm;
7,5/8,2 mm;
8,2/8,8 mm; >8,8 mm.
